

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Great Guns Sporting Monitoring Requirements Not Met

Este informe contiene información muy importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.

Our water system recently violated a drinking water requirement. Although this situation is not an emergency, as our customers you have a right to know what happened, what you should do, and what we are doing to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During Q1 2021 - Q4 2025 our Total Coliform sample sites were not representative and therefore cannot be sure of the drinking water quality during that time.

What does this mean? What should I do?

- There is nothing you need to do at this time. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What is being done?

- On December 19, 2025, Great Guns submitted a written response to the department inspector designating representative sampling locations within the distribution system in accordance with Regulation 11.

We anticipate resolving the problem by **January 5th, 2026 (issue has been resolved)**. For more information, please contact **Brendan Young** at **brendany964@gmail.com** or **970-690-5536**, or **16126 County Road 96 Nunn, CO 80648**.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
